Computer Classes Outcome Report 1st level

January 12th to February 16th 2011

Prepared by Jorge Tello – Program Coordinator

The first cycle of Computer Classes level one started on January 12th at Jose Arciga Apartments, residents from Elm Park, Willow Park and Jose Arciga attended these classes. 80% of the students had never used a computer before, only 20% had used one at home.

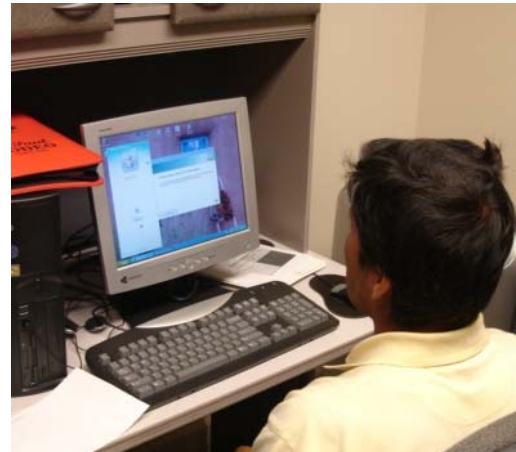

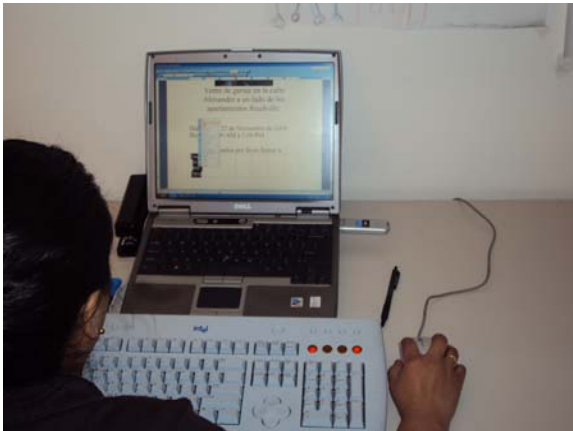

In this class the students learned the basic terminology of computer parts and how to turn it on; the use of the mouse with an online program called “mousercise” which helps the students became familiar with the mouse functions.

The students also learned basic typing skills, word processing, web surfing and each one created their own e-mail address. They also learned how to use Google to search for information and images to create a flyer.

These students were very motivated with the classes. One of them said that the reason why he took the class is because at his work they ask him to do stuff on the computer and he was feeling a little worried because he had never used a computer before. Another student wanted to learn so she could her kids do research for their homework. Since she has a computer at home she’ll be now practicing more.

The students were very thankful to Bienestar for providing this kind of program to enrich their lives. They are now ready to take the 2nd level Class.

COMPUTER LITERACY ASSESSMENT 1st Level

This report reflects how many people out of 4 had general knowledge in computer, word processing and internet. On the pre and post test.

General Knowledge	Pre Test	Post test
1. Can you name at least one input and one output device?	2	4
2. Do you know what RAM stands for and how much your computer has?	1	3
3. Do you know what an “icon” is and what to do with it?	1	4
4. Do you know how to use your mouse to “drag an item”?	0	3
5. Do you know how to search for a file on your computer?	2	4
6. Do you know what a modem is used for?	0	2
