

Children's Tile Mural Project at Sunset Gardens May, 2009

Children and parents gathered recently to dedicate the tile mural created by the children of Sunset Gardens for the Community Room. Twenty-eight children between the ages of 3 and 14 participated in the project, painting ceramic tiles. With the help of Bienestar Program Services Manager Gracie Garcia, and local tile artist Lynn Adamo, the children were given free rein of expression in designing and painting their tiles.

Artist Adamo then glazed and fired the tiles, assembled them into a single framed piece, and installed it in the Community Room where the 101 resident families at Sunset Gardens will enjoy it for years to come.

Tile art mural created by children of Sunset Gardens Apartments.

The project was made possible by a grant from the Washington County Arts, Heritage and Humanities Coalition.
